Ways of working with the ETC

ETC Representative meeting

20th February 2025

Building the clean energy system faster

Power systems transformation

Balancing renewable grids Building & optimizing grids Long distance interconnection DSF & power demand Low-carbon baseload: nuclear & geothermal

Energy Productivity

Sector by sector opportunities Road transport Harder-to-abate sectors

Role of carbon molecules in a zero-emissions economy

Economics of the transition

Investment, costs & affordability Trade in low-carbon technologies

Extending our influence in the global climate debate

Disseminating ETC insights & recommendations

Leveraging existing knowledge

Informing the influencers

Delivering action through future COPs

Triple up, double down, phase down

COP 30, 31

Building the ETC regional network

Expand into new

Enhance networks and local priorities

Share insights & best practice

Supporting the ETC members

Meetings

Analysis

Resources

Events

Supporting the MPP and the ITA

2025 Analytical Work programme

2025

Into 2026...

Energy productivity

Role of EP overall

Road Transport & HTA deepdives

Power systems transformation

Integrated view on Power Systems Transformation

- Balancing renewable systems
- Role of grids

+ Interconnection opportunities

Power demand growth

Demand side flexibility

The role of low-carbon baseload in net-zero power systems: nuclear and geothermal

Regional Programmes

Indonesia – solar + grids

India - AgriPV

Power Market design 2.0 – consumer pricing

Beyond power and H₂ – the role of emission-free molecules and ‘defossilising’ carbon

- The role of low-carbon molecules across sectors
- Sourcing fossil-free carbon (recycling carbon, DAC, bioresources)

Economic impacts of the energy transition

Trade of low carbon technologies

Investment, costs & affordability

Repackaging existing insights

Carbon credits: Role of scope 3 emissions

Bio-resources in net-zero economy

Others - tbc

Regional Programmes

Brazil

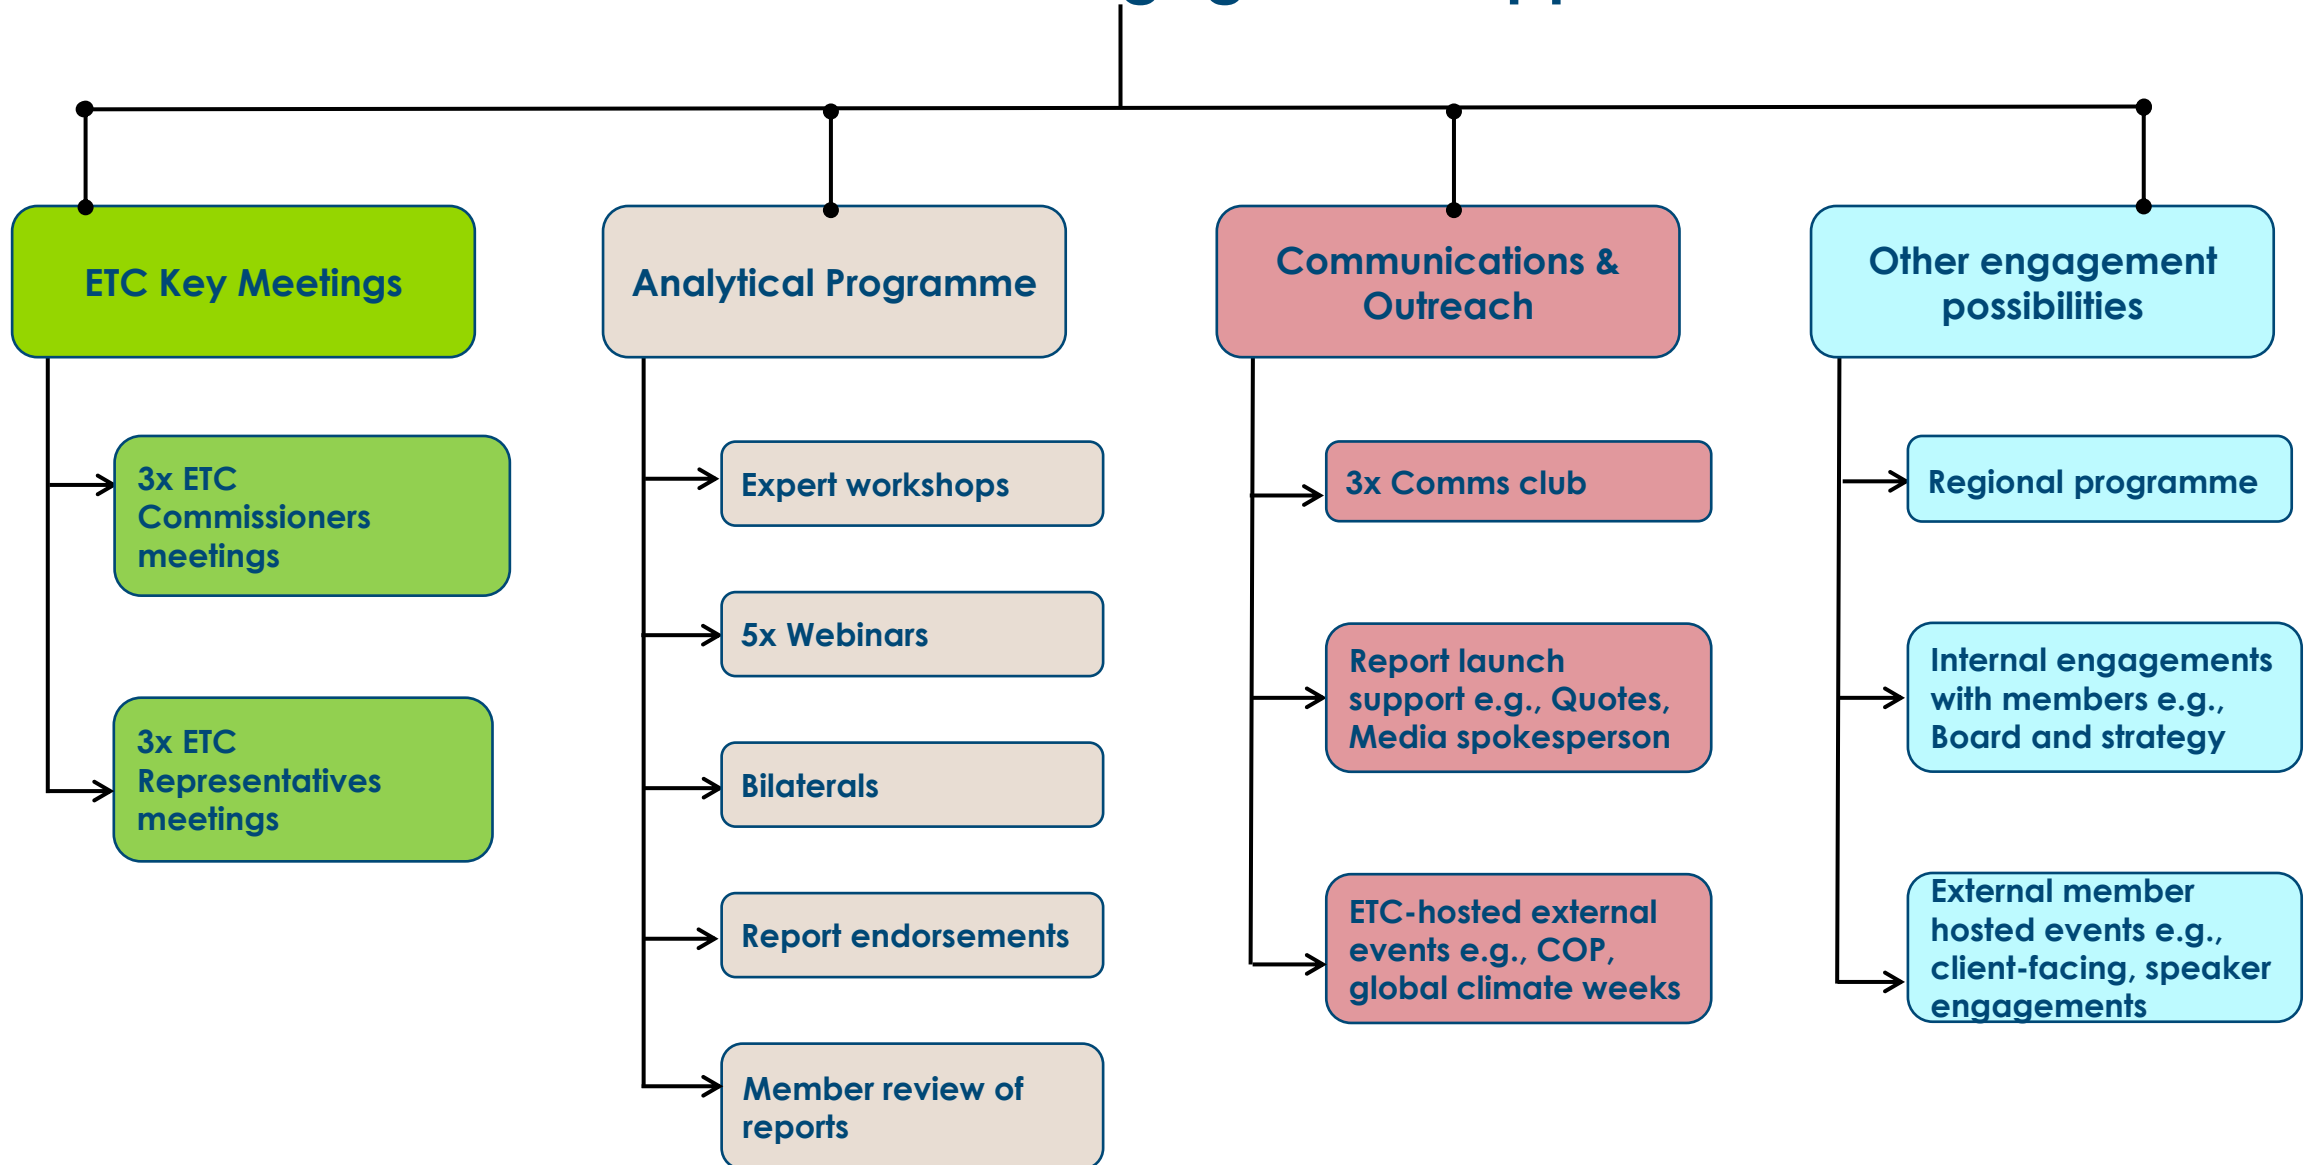

‘Beating the drum’ – ongoing

Short form & tailored content

Taking the messages out – media, events

Partnership building

2025 ETC members' engagement opportunities

2025 Member engagement schedule

	Commissioners meetings	Representative Meeting	Webinar	Comms club	Analytical input	Select external events
January						Davos 20-24 Jan
February		½ day Representative Meeting – virtual	Webinar		Low-carbon molecules 26 Feb	
March	½ day Commissioners Meeting – virtual			Comms club		
April			Webinar			
May		Representatives Meeting – hybrid				
June	Commissioners Meeting – hybrid			Comms club	Expert workshops & report review line with analytical work programme	London Climate Week 21-29 June
July			Webinar			
August						
September		Representatives Meeting – hybrid				NYC Climate Week 21-28 Sept
October	Commissioners Meeting – hybrid		Webinar	Comms club		
November			Webinar			COP30 10-21 Nov
December						G20 Summit 22-23 Nov

ETC Insider newsletter: monthly insights, updates and news

Share the newsletter with your internal teams or get in touch with pmo@energy-transitions.org to request others be added to the mailing list

ETC Insider

Exclusive insights, updates and news from the Energy Transitions Commission in one place. This issue covers ETC work in January 2024.

We start with a [round-up of ETC activity over the past month](#), with links to all key materials, followed by [upcoming dates for the diary](#) and what to expect from the ETC. We then delve deeper into [insights](#) and [updates emerging](#) from across the ETC's energy programme and our broader network.

If you have any ideas or content for future editions, please email pmo@energy-transitions.org. **Please note the ETC Insider should not be shared beyond your organisation.**

ETC Round-Up

A rapid round-up of the ETC's latest progress, analysis and insights across our workstreams – with links to our latest materials all in one place.

Global energy programmes

Barriers to Clean Electrification:

- **Offshore wind:** The ETC is continuing to progress with drafting the report on offshore wind. This will cover the reasons behind the perceived 2023 crisis in the sector. The analysis demonstrates that cost-increases are only temporary, offshore wind is still competitive with gas, and outlines actions that could accelerate deployment of offshore wind. A working draft of the report will be circulated for comment in February, however Commissioners will not be asked to formally endorse the report. Please reach out to [Shane O'Connor](#) for more information on this workstream.

Setting the Agenda

Upcoming dates for your diary and an overview of what's coming up on the ETC agenda.

Commission Meetings

Representatives:

- February 27th & 28th (Virtual) 11:00 am – 3:00 pm GMT both days.
- May (Hybrid, in-person in London and virtual), followed by dinner.
- September (Hybrid, in-person in London and virtual), followed by dinner.

Other events and engagements

January 31st – February 1st 2024 - [Solar Finance and Investment Europe Summit](#), London.
February 7th – 9th 2024 – [World Sustainable Development Summit](#), New Delhi.
March 4th – 6th 2024 – [Economist Impact Sustainability Week](#), London.
March 13th – 14th 2024 – [Financial Times Climate Capital Live](#), London.
April 30th – 1st May 2024 – [Innovation Zero Congress](#), London.

What to look out for from the ETC and members (dates subject to change)

February

- **India & Indonesia:** Adair Turner (ETC Chair) and Rose Dortch (Global Programmes Lead) will be on the ground in India and Indonesia in early February.
- **EU:** A virtual Workplan Working Session hosted by ETC will take place on February 8th at 13:00 GMT/14:00 CET.
- **Materials and Resources:** ETC webinar on the [Material and Resource Requirements for the Energy Transition](#) report on February 13th, 1:00 pm – 2:30 pm GMT. Open to all staff within member organisations. Please contact PMO for the invitation.
- **Representatives Meetings:** Two virtual sessions will take place across February 27th & 28th (Virtual) 11:00 am – 3:00 pm GMT both days. Invitations have already been circulated via email. Please contact the [PMO](#) with any questions.

March

- **Offshore Wind:** Insights briefing expected to publish in Q1.
- **Comms Club:** The next Comms Club meeting, open to Representatives and Comms Leads, will take place in March.

Launched in 2024: An exclusive digital hub for ETC members

Objectives

- Permanent online access to ETC member-only content.
- Easy to search resources.
- Streamline hand-overs between commissioners & representatives within member organisations.
- New members can access all ETC historical files.

Enhancing collaboration with the ETC Communications Programme

What to expect from the ETC

We can help amplify your work

- **ETC can help amplify your work on global stages:** for example, at major events (e.g., COP, NYCW, LCAW) and digitally.
- **Share your work and case studies with us to disseminate.**

We will share our latest analysis and messaging with you

- Keeping your teams up to date through our **newsletters, the Member Portal, and comms club.**

We can work together to drive impact

- **We welcome bilaterals on new areas of analysis and emerging campaigns,** to drive bigger impact collaboratively.
- **Tell us how we can support your comms activations.**

How you can work with the ETC

Disseminate ETC analysis through local events and media

- **Use ETC speaking-notes and analyses** at industry events. ETC can help package analysis and charts for use at events.
- Take ETC's key messages to **national broadcast and print media** in local languages.

Connect ETC with policymakers and industry groups

- **ETC spokespeople can support members** at industry events.
- Connect ETC analytical team **with relevant national policymakers or industry groups.**
- The ETC team is available to **conduct policy roundtables & briefings** based on member interest.
